Project datasets overview: Conservation of Northern Lapwing

	Name	Description	Frame time	Spatial resolution	Download link
	Movebank Animal movement	Repository of **animal tracking data**.	Depends on the study	Depends on the study	https://www.movebank.org (The data may be available for download or viewing only)
SOIL	Earthworm factor	Maps of factors derived from the **abundance and richness of earthworms**.	Baseline: data from 1963 - 2014	500 m	https://esdac.jrc.ec.europa.eu/content/biodiversity-factor-soil-erosion#tabs-0-description=1 (Form request link)
SOIL	Soil Water Index Europe	Raster of **moisture** condition at various depths in the **soil**	2015 - present	1 Km	There is no direct download option, but the data can be downloaded using an R script.
SOIL	Soil Grids	Predictions of **soil properties** (e.g., soil organic carbon, percent silt, etc.).	2020	250 m	There is no direct download option. The data can be accessed through the Living Atlas in ArcGIS Pro.
PLANTS	MODIS NDVI	Data of normalized difference **vegetation index** (photosynthetic activity)	2000 - 2025 (May) Every 16 days	250 m	There is no direct download link, the dataset can be generated from GEE (Dataset: MOD13Q1.061).
PLANTS	Pesticides application rate	Data on the estimated average annual rate of **pesticide application** for 53 active ingredients.	2018	250 m	https://figshare.com/articles/dataset/Pesticides_application_rate_maps_in_the_European_Union_at_high_spatial_resolution/27743286

Project datasets overview: Conservation of Northern Lapwing

	Name	Description	Frame time	Spatial resolution	Download link
WEATHER	Lunar	R package with functions to calculate **lunar variables**.	Calculated for any timestamp	Calculated for any coordinate	There is no direct download option, but the data can be downloaded using an R script.
WEATHER	Moonlight intensity	R package with functions to calculate **moonlight intensity** and other statistics.	Calculated for any timestamp	Calculated for any coordinate	There is no direct download option, but the data can be downloaded using an R script.
WEATHER	Easyclimate	R package with functions to leverage **climate data**.	1950 – 2022	~1 km	There is no direct download option, but the data can be downloaded using an R script.
WEATHER	ERA5 Daily Latest Climate	Data of **atmospheric variables**, such as air temperature and air humidity.	1950 - present	~9 km	There is no direct download option for the high-temporal-resolution dataset, but the data can be downloaded using a GEE script.
	Population density - Eurostat	Data of **number of people living within a specific geographical area**, divided by the area's size in square kilometers.	1990 - 2023	250 m	https://ec.europa.eu/eurostat/web/main/data/database.

Project datasets overview: Conservation of Northern Lapwing

	Name	Description	Frame time	Spatial resolution	Download link
HUMAN PRESSURE	Global 30-m cropping intensity	Map presenting the estimated annual **frequency of cultivation** for the same land area.	2020	30 m	There is no direct download link, the dataset can be generated from GEE - Code Editor (Javascript).
	EU Crop Map	Dataset of **crop types** at the agricultural parcel level for all EU member states.	2022	10 m	https://data.jrc.ec.europa.eu/dataset/555e5d1d-1aae-4320-a716-2e6d18aa1e7c?utm
	Human Influence Index (HII)	Map of an index that represents the relative **human influence** in each terrestrial biome expressed as a percentage.	2005	~1 km	There is no direct download link, the dataset should be accessed thorugh ArcGIS pro..
